GREETING ADDRESS

**To the Rector of The Military Technical Academy “Ferdinand I”
Brig. Gen. Prof. Eng. Iulian-Constantin Vizitiu, PhD**

Dear Brigadier General,

Allow me to extend my and my institution’s warmest greetings to the staff, students and alumni of the Military Technical Academy “Ferdinand I” on the occasion of the 70th anniversary of military polytechnic education. We wish all of you the best of health and a lot of professional success in your highly ambitious endeavors.

We look forward to continuing our partnership with The Military Technical Academy as both of our institutions work towards a common goal – accumulation and dissemination of knowledge. The awareness of the meaning and significance of the accumulation of knowledge is wisdom. The ability to do this is a talent, and the implementation of the acquired knowledge is a gift that implies advantage in competition. Back in ancient times Confucius exclaimed, „The essence of knowledge is, once you have it, to apply it.”

Good luck and success in the years to come!

Rector of Vasil Levski National Military University

Brigadier General

17 May 2019

Plamen Bogdanov, PhD
