Dear partner,

On behalf of Riga Technical University Software Engineering Department, we are very excited about our partnership, and we just want to thank you for being a part of our partner's family.

I just wanted to let you know that all of your help with getting our international partnership with Romanian education institutions off the ground is very much appreciated.

Please give our best to everyone on your team, as we know that they played no small role in making this cooperation partnership possible.

I look forward to a long and fruitful relationship between our two institutions.

Thank you, again!

Sincerely,
prof. Aleksejs Jurenoks
